positionor information being stored in the database. Matching is based on determining whether the positionee information correlates with the positionor information. A correlated information list is created. The correlated information is presented for review. Code sections of the computer program preferably accomplish these and other tasks.

IN THE FIGURES:

Please substitute attached Figures 1-60 for the originally filed Figures 1-60.

REMARKS

This Preliminary Amendment is responsive to that section of the Notice of Missing Parts mailed 9/6/2001 requiring an Abstract of less than 150 words, and substitute figures in compliance with 37 C.F.R. § 1.84. This Preliminary Amendment accompanies a Petition for Revival of this Application, which became abandoned on 11/7/2001. A check for $1280.00 is enclosed for the Petition to Revive. No new matter has been added by this Amendment. Please contact the undersigned attorney if there are any questions regarding this Preliminary Amendment.

Respectfully submitted,

Date: 5/16/2002
